"It makes a big difference in your life when you stay positive."

Greetings from the office of Career Placement and Development Centre (CPDC), Universiti Malaysia Pahang (UMP).

Despite a year of pandemic-driven social isolation and pain, in which we have to switch to virtual world and keep encouraging ourselves to fight so that one day we'll see the light among the darkness. We hope all of us can still find hope and some light to shine upon the path we walk. Ellen DeGeneres said: *"It makes a big difference in your life when you stay positive"*.

We hope you will enjoy reading reminiscences of our challenging yet fruitful 2021.
